

Prestige™ Vinyl Patio Doors

ProVia®
THE PROFESSIONAL WAY

Prestige Vinyl Patio Doors are tested against the most stringent industry standards for air and water infiltration, wind-load resistance, ease of operation, forced entry and much more. This means you'll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

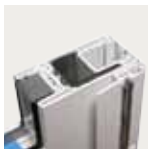

* Warranty time period may be limited in extreme exposure applications. See warranty for details

Standard Features

Strong, multi-chamber profiles and 5½" frame depth offer greater thermal efficiency and increased sound abatement.

Galvanized steel reinforced panels ensure rigidity and stable operation.

The **vent lock** adds peace of mind when you want to leave the door open for ventilation yet keep would-be intruders out.

Fixed and mobile **panel rails meet and interlock perfectly**, making removal from the outside virtually impossible. **Lower sill design** provides safer entry and exit.

Sill is reinforced with galvanized steel. Pair that with our **patented water draining system**, and it results in an efficient and durable base for our patio door.

Patented sliding system features four adjustable 1" wheels per operating panel to ensure smooth, easy and quiet operation.

Suspended by ball bearing rollers this **top-hung heavy duty aluminum screen frame** reduces binding, creating effortless operation.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. **BetterVue™ fiberglass screen** is standard. Heavy-duty fiberglass, aluminum, or SeeVue™ stainless steel screen is optional.

8000 Series Features

- ComforTech™ TLK triple glazed warm edge glazing system with high performance Low-E Krypton glass
- Woodgrain interior
- Secondary ventilation lock
- Multi-point locking Bright Brass or Satin Nickel handleset with keylock.

7000 Series Features

- ComforTech™ DLA warm edge glazing system with high performance Low-E Argon glass
- Secondary ventilation lock
- Multi-point locking color matched handleset on white or beige patio doors.

• **7000 Series is available as a Impact Shield Product.** Woodgrain interior is optional.

CERTIFIED
WIND LOAD PRODUCTS

Most products on this brochure meet or exceed testing standards required by the Florida Building Code. Products that were NOT tested for Certified Wind Load areas are noted in **gold colored type**.

IMPACT SHIELD
PRODUCTS

Impact Shield Products are designed to protect your family and home against the harshest storms, and help deter burglaries. Impact Shield products feature laminated glass and can withstand repeated blows from windborne-debris and unwanted intruders and are indicated with the blue shield icon and **blue colored type**.
