

Distinctions Series™

Hampton • V-Groove Backing • Oak • Window I

Undeniable Beauty Meets the Strength of Steel

Our doors are handcrafted by overlaying steel sections with environmentally-friendly composite material, providing you the natural beauty of real wood without any of the maintenance.

Hampton • V-Groove Backing • Light Cherry • Window H

Give your home an upscale, timeless look knowing your investment virtually pays for itself. No other home remodeling project delivers better value. These beautiful doors are built to last and are a smart and stylish investment that you will enjoy for years to come!

High End Wood Look Without The Maintenance

No matter the design, all of our overlays are impervious to moisture, mold and mildew because they are built with environmentally friendly composite materials that provide the beauty of naturally stained wood. Because we do not use wood to build our door designs, we are able to provide a termite-resistant door that won't crack, warp, split, or rot.

Energy Efficient Door Base

Underneath our overlays is a sturdy and durable NeuFoam™ insulated steel door base. NeuFoam™ insulation will guard your garage against hot and cold temperatures. Our unique WeatherLock™ section joint prevents any water from coming into your garage. Combining our high performing overlay boards with a long lasting steel door base allows us to create a superior product.

Providence • V-Groove • Walnut

Cambridge • V-Groove Backing • Mahogany

Pick Your *Opener*

Raynor's full line of residential openers offer a broad selection of performance, features and durability. All models offer the ultimate in safety and security features, are available in a variety of horsepower

levels and drive systems, as well as wall mounted jackshaft operators and battery backup systems. MyQ™ technology enables you to securely monitor and control your garage door opener with your smart phone, tablet or computer.

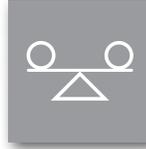

Raynor Product *Benefits*

WeatherLock™

Raynor's thermally efficient WeatherLock system is designed for the harshest climates. Our proprietary

WeatherLock™ section joint has continuous thermal break and air seal between steel sections. This modified tongue-in-groove joint provides exceptional strength, while effectively locking out both air and water infiltration into the garage's interior.

TruBalance™

Doors equipped with our patent pending TruBalance drum system are 87% easier to operate

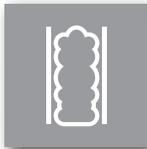

manually and provide you with a peace of mind knowing you can safely and easily manually operate your garage door in emergency situations. This counter balance system comes standard on doors up to 8' high with oversized windows in the top section.

Authorized Dealer Network

When you select Raynor, you're not just getting a superior garage door, you're also getting professional

garage door installation and service expertise. Trust your Raynor garage door to someone who knows it better than anyone else, your professional Raynor Dealer.

NeuFoam™

State of the art high-density NeuFoam™ polyurethane insulation delivers maximum structural

integrity and door strength. Combine our state of the art insulation material with our proprietary WeatherLock™ section joint design and you get the industry's most energy efficient door.

SecureLoc™

Raynor's SecureLoc Anti-Break-In assurance plan combines a SecureLoc capable opener with the

strength of a Raynor residential garage door that locks automatically when the door closes. Have a peace of mind knowing your garage is protected from intrusion with SecureLoc! For more information on Raynor's Anti-Break-In assurance plan visit www.Raynor.com/SecureLoc.

Limited Lifetime Warranty

Dedicated to customer satisfaction, Raynor doors carry a "For as Long as You Own your

Home" limited section warranty against rust. Upgrade your hardware and spring components to the EnduraCote™ options which warrants all hardware and spring components against defects in material and workmanship for as long as your own your home.

Commercial *Eden Coast*

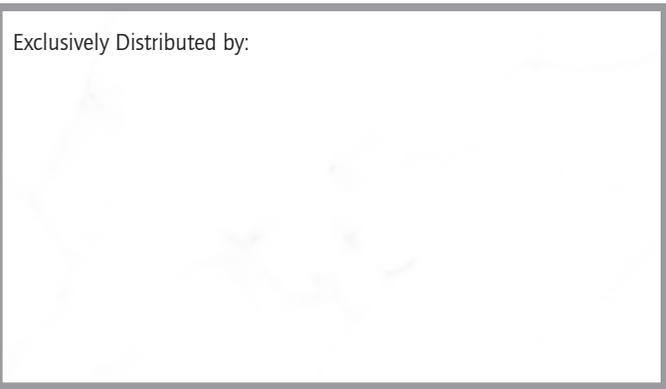

A perfect commercial-sized companion for the residential Eden Coast doors, this handcrafted commercial door will brighten up the appearance of any building, inside and out. Available in a wide range of sizes and colors, the Commercial Eden Coast is your best choice for an oversized, one of a kind residential appearance.

DASMA TPV *Program*

The DASMA Thermal Performance Verification (TPV) Program is a voluntary program to certify and verify the thermal performance ratings of sectional door products using third-party testing and inspection. The U-Factor on this model is verified through the DASMA TPV Program.
