# STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality.

## Storm Door Construction

**A**

**Durable, oven-baked polyester finishes** are backed by a Lifetime Warranty for lasting beauty and low maintenance.

**B**

**Extruded aluminum frame** adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

**C**

All our storm doors are constructed with **tempered safety glass**.

**D**

You'll appreciate the finished look of our **color matched aluminum installation screw covers**.

**E**

Each door features **quality hardware** that adds beauty and functionality to your new storm door. Varies by model.

Sashes are secured by our **color matched polycarbonate clips** or an **internal sash lock system**. Varies by model.

Smooth function is essential. That's why we include a **quality door closer** in every storm door package. Varies by model.

**F**

**Corrosion-proof corner gussets** enhance the structural integrity of the door.

**G**

Our **bottom expander with sweep** allows for a beautiful custom-fit to any entry. Varies by model.

All ProVia Storm Doors are available for use in the Impact Shield regions. While storm doors help protect your entry door from the elements, they are NOT wind-borne debris tested, and therefore are NOT considered an Impact Shield Product.

# STORM DOOR DETAILS

The details are the small things that set our storm doors apart from the competition. A lot of small things add up to a big difference.

## Storm Door Paint Finishing System

Our paint process is computer controlled, ensuring professional quality every time. Paint is electrostatically applied with a vertical hydraulic reciprocator using a turbo disc that atomizes the paint particles for better coverage of contoured extrusions.

 LIFETIME FINISH WARRANTY  
For all Storm Doors
